## **DETAILED ACTION**

### ***Response to Amendment***

1. This action is in response to the communication filed on July 24, 2006.
2. Claims 1-20 are pending in this action.
3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Raphael A. Valencia (Reg. No. 43,216) on October 10, 2006.

The application has been amended as follows:

IN THE CLAIM:

Please cancel claims 13-15.

### ***Allowable Subject Matter***

4. Claims 1-12 and 16-20 are allowed over the prior art of record.
5. The following is an examiner's statement of reasons for allowance: The applicant a method/apparatus for digitally generating sound from phase and amplitude information of narrow bandwidth signal. Applicant's arguments filed on July 24, 2006 are persuasive to the examiner, particularly applicant stated, "Clark does not disclose at least applying a frequency gain to the phase derivative information, summing the results of the applying with an audio wave carrier having an audio band frequency and

outputting control information that includes the applying results imparted to the audio wave carrier, and converting, at an output sample rate that is higher than an audio band frequency, amplitude and frequency modulation information to an analog amplitude/frequency modulated speaker control signal as claimed in independent claims". The prior art of record fails to teach or fairly suggest the claimed combinations of features.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Contact Information***
